

HMS Caprice Tamworth RNA Weekend Friday 22nd June/ Saturday 23rd June 2018

Latest News

The Tamworth RNA has always given a very warm welcome to all members of HMS Caprice 1968 Association and they have always supported the annual reunion. It was where the first reunions originated.

Whilst not detracting from the brilliant Autumn Annual Reunion, the mid-year Tamworth weekend has a good reputation as an informal fun couple of days with a Friday games challenge evening, followed by a fantastic Saturday social evening with live entertainment and buffet. It's a great chance to meet old shipmates and make new friends. All those who have attended previous weekends will confirm that it is a memorable couple of days.

This year in 2018 it's going to be extra-special.

- To mark the 50th Anniversary of the 1968 World Cruise, Tamworth RNA Club is hosting the Dedication of the **Association Standard** (shown below) on the morning of Saturday 23rd June.
- In addition, a new **Association Memorial Book** for those members who have crossed the bar will be displayed.
- We're also hoping to display many of the photographs collected by the Association over the years to bring back a few memories!
- After the Dedication, the bar will of course, be open!!

The Chaplain (Sin Bosun) who serves at the National Memorial Arboretum has agreed to administer the dedication and the event is going to be supported on the day by members of the Tamworth RNA Club.

The new Standard has been purchased at some cost by the Association *for* the Association, and we are hoping that as many Association members and Honorary Members as possible will attend this special event.

There is a decent "Travelodge" (Tamworth Central) only 10 minutes' walk (or stagger) from the Tamworth RNA Club for those who want accommodation.

Several Caprice Association Members have already put themselves down to attend, but the more the merrier, so if you can attend the Tamworth Weekend and support the Dedication, please let Bob Mason know as soon as you can. Bob can be contacted via: robertm50@talktalk.net, or 07495 464765.
